CYBERSECURITY

THE DIPLOMA

The Cybersecurity Professional Development diploma program prepares students for an entry-level to mid-level career in cybersecurity.

WHAT YOU'LL LEARN

- Packet analysis
- Problem solving
- Agile
- Vulnerability analysis
- Training in latest attacks and defense
- Hands on experience
- Basic program learning with Python
- Wireshark and Nmap

WHAT YOU'LL GET

- Practical skills and knowledge from experts in the field to on cyber industry best practices, standards and trends to secure and protect network vulnerabilities.
- Receive job placement assistance including resume building, interview training and help identify relevant positions in related fields.
- Access to create a virtual profile on our exclusive employment networking platform.
- Hands-on experience.

THE WOZ U EDGE

QUALITY CONTENT

- Created by Industry Experts & Employers
- Curriculum created by industry experts for employers and vetted by Department of Education accreditors for rigor and outcomes with instructors meeting college level standards.

CAREER SERVICES

- Resume Building
- Interview Training
- Job Placement Assistant
- Electronic Career Profile
- Digital Badges
- Employer/Alumni
- Connections

IN-PERSON COACH

- Admissions coach
- Financial Aid Coach
- Instructors
- Career Services Coach
- Assigned Mentor
- Student Ambassadors

> I was able to do a little review and studying for Security+, and passed it on my first attempt. The program helped me make a significant career change, and one that I am excited for. The instructors I worked with were both very knowledgeable in the field and have a lot of great experience to share with students. *- Peter Soverns*
